

ENVIRONMENTAL POLICY STATEMENT

Terrain Construction Limited acknowledges the impact its activities within the civil engineering and construction industry have on the environment and accepts its responsibilities and obligations to contribute to the resolution of global and local environmental issues. Terrain Construction aims to reduce its environmental impacts by making a commitment to the principles of sustainable development and promotion of environmental good practice.

Our Commitment to the environment will be communicated to all employees, sub-contractors and suppliers when carrying out activities that have potential environmental consequences.

In order to achieve our objectives we aim to:

- Use recycled and recyclable materials where appropriate, choosing products and suppliers which minimize negative environmental impacts, thereby promoting sustainable development.
- Pay close attention to handling and storage and transportation of substances or materials that may be hazardous to the environment.
- Avoid the unnecessary use of hazardous materials and processes and to take all reasonable steps to prevent damage to either public or ecological health where such materials are in essential use;
- Reduce the effect of noise, dust, disturbance and inconvenience from operational activities
- Pro-actively plan for the waste created on site. All of the waste products will be segregated and recycled where possible so that we are continually reducing waste transported to land fill.
- Adhere to regulations that protect natural habitats and local wildlife and preserve biological diversity
- Ensure all employees have an understanding and are trained in their responsibilities in relation to the environmental policy and management system
- Work closely with clients to identify key environmental issues and seek innovative solutions and appropriate alternatives
- Continually monitor and implement new best practice principles
- Continue to comply with all relevant legislation and codes of practice
- Ensure that suppliers and sub-contractors minimize the impact of their operations on the environment and actively support our environmental programs through an environmentally sound purchasing policy.
- Promote a sense of responsibility towards the environmental by management, staff and contractors whilst carrying out their daily duties on behalf of the company.
- Seek to establish a solid relationships and co-operate fully with the relevant statutory undertakers, i.e. Environment agency and local authorities.

The Directors and managers are responsible for the effective implementation of this policy. We aim to make continuous improvements as our organization develops and, in order to achieve this, this Policy will be reviewed annually.
